Hog Pen Rocks Hike

Visit the Revolutionary War settlers refuge, a historic site treasured by "locals" for 9000 years, sculptured by the Wisconsin Glacier 20,000 years ago from three billion year old rocks.

Guides will discuss the history of the Hog Pens, and the flora and fauna of this beautiful natural area. There will be a camp fire at the rocks with hot dogs and marshmallows.

Located in Boonton Township on land owned by the Morris County Park Commission. Entry off Miller Drive, driveway to trail head – a moderate hike of about 30 minutes.

Sponsored by The Historic Society of Boonton Township and The Boonton Historical Society, and co-sponsored by POWW and The Morris County Park Commission. An event celebrating our local sesquicentennial 1867 – 2017.
